1. The amendment filed on 11/8/04 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is incorrect to recite "connected to a RMR element" on lines 3-4 of claim 1 because this element has already been set forth in the original claim, i.e., it is the "resistive sensor" on line 7. It is therefore suggested that the amendment on lines 3-4 be deleted.

4. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Schenk.

See paragraph three of the previous office action for the details of this rejection. The newly recited "RMR element" is improper, as noted above, but nevertheless reads on the resistive sensor element noted in the previous office action

(using applicant's definition of an RMR set forth on page 1 of the instant specification).

5. Claims 15-32 are allowed.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
